

WD RxConnect

Connecting you to your prescriptions *wherever* you are

Introducing WD RxConnect,

our centralized prescription record system that links all Winn-Dixie and SaveRite pharmacies together. Now you have the comfort of knowing your medication is as close as the nearest Winn-Dixie Pharmacy.

Now more control of your medication with our new pharmacy online service. Visit us at winn-dixie.com/pharmacy

With our new services you can review your medication profile online, print your own medication history reports, request refills online, view images of the pills you are taking, plus much more. Set up your private account today to take better control of your health.

FAQ's about WD RxConnect

What do I do when I am out of town and leave my medication bottle at home?

With our new WD RxConnect you can walk into any Winn-Dixie pharmacy, give them your name, date of birth and/or address and they will be able to refill your prescription or call your Doctor if authorization for a refill is needed.

Why do I need to set up a unique account to refill my prescriptions online?

Winn-Dixie values your privacy and understands the need to protect your health information. Because your profile contains your medication history, a private user name and password is required for each account.

Why should I have all my prescriptions records in one profile?

For safety it is important for your pharmacist to review all of your medications when filling a prescription. With WD RxConnect our pharmacist can check your profile for potential side effects or drug interactions with all the prescriptions you are taking.

Why do some of my prescriptions not show a drug image?

With many medications like liquids or topicals, images are not available. Also from time to time manufacturers will change the shape, color or imprint on a pill and during this conversion images may not be available. Winn-Dixie is committed to working with our manufacturer partners to keep these images up to date.

When viewing my profile online, how do I update information?

If you have a change of address or other information, contact your Winn-Dixie or SaveRite pharmacist and they can update your profile.

What If I don't want to have my records in WD RxConnect?

While this will restrict your ability to walk into any Winn-Dixie or SaveRite Pharmacy and get your prescriptions in a timely manner, you may want to make this request for personal reasons. See your Winn-Dixie or SaveRite pharmacist and they will be able to take care of your request.

What if my store was closed due to a natural or man-made disaster?

That's the very reason we created WD RxConnect. If you can't get to your regular pharmacy for any reason, your medication records are available at any Winn-Dixie or SaveRite Pharmacy.

Pharmacy online services are as easy as
